What we can do for you?

Sony/ATV not only let you choose from a vast catalogue of songs but also:

- can be the music supervisor, searching and providing you with the songs you need (but you don’t know them yet)
- provide and license music for advertisement, feature movies, multimedia or any other innovative projects
- ... save your marketing costs...

We can do this because:

- we own or represent a vast catalogue of songs and library music
- we are working closely with composers and writers (you can order a custom-made song)
- we are doing music search and we help to choose the right and best song for the requested project
- may locate the owners of the copyrights and master
- connect you with writers and composers (for custom made music)
Thank you!
